Zusammenfassung

This document presents a generic model for the description of data centric sensor faults. Based on this description is ..

1 Concept

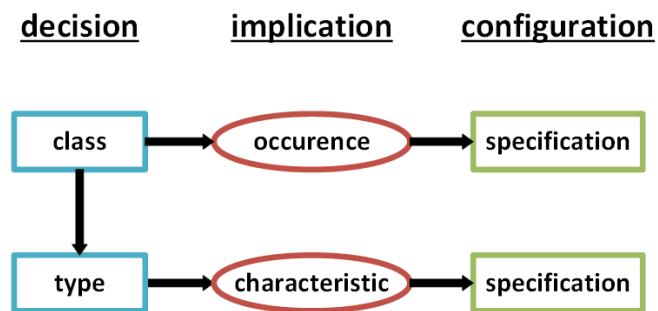

Abbildung 1: dont know yet

1.1 classes and types

define **classes**

Offset:..

```

Outlier:..
define types
non correlated:..
value correlated:..
time correlated:..

```

1.2 occurence

Type	Description
permanent	text..
transient	text..
intermittent	text..

Tabelle 1: Description of the various occurence modes

1.3 characteristic

Type	Description
non correlated	text..
time correlated	text..
value correlated	text..

Tabelle 2: Description of the various characteristic modes

2 Implementation

2.1 modularisation
